OUR PIPELINE TO DEVELOPING HEALTHCARE PROFESSIONALS

SPCC Atlanta AHEC (Southeastern Primary Care Consortium, Inc. Atlanta Area Health Education Center) is preparing the next generation for a career in the healthcare workforce. Our mission is to enhance access to healthcare by increasing the supply and distribution of healthcare professionals and empowering the community through health education and health promotion services.

For further information on our services and programs, please visit: SPCC-AtlantaAhec.org or call: **(404) 815.4996**.

1

We **RECRUIT** and educate future healthcare professionals.

Our recruitment programs and services are provided by classroom presentations, intensive exposure to healthcare professional mentors, interactive career activities, and an empowering series of career readiness and inspiration. These services are provided through:

- General Health Careers Awareness Programs
- Health Professions Panel Discussions
- Healthcare Facility Tours
- Health Careers Guidance and Counseling Services

3

We **RETAIN** and provide continuing education resources for healthcare professionals.

Our retention programs and services are provided to increase the supply and distribution of healthcare professionals by offering access to information resources for isolated healthcare providers to stay current in their respective fields. These services are provided through:

- CME/CE Programs for Healthcare Providers and Staff
- Inter-professional Education and Training for Faculty
- RN Nurse Re-Entry Program
- Consumer Education Workshops

2

We **TRAIN** and facilitate community-based clinical training experiences.

Our training programs and services are provided through partnerships with health professions schools/programs, healthcare provider sites, and community organizations. These services are provided through:

- Graduate Public Health Internship Program
- Interdisciplinary Clinical Training Experiences
- Community-Based Clinical Training Program
- Health Professions Guidance and Counseling Services
- Assistance with Housing and Travel Support

4

We **ENGAGE** communities in our programs and empower them to take charge of their health.

Our community engagement programs and services are provided with a principal focus of encouraging and empowering individuals who are at high-risk for health disparities and members of underserved communities. These services are provided through:

- Health Awareness and Health Promotion Programs
- Community Based Research Assistance
- Community Health Advocacy
- Health Fairs and Health Screenings

Serving Fulton, DeKalb and Clayton counties with ♥!
